

CLASSIC DRIVER

The Cartier Drive is a watch for the Classic Driver

Lead
The Drive de Cartier – or Cartier Drive – is the latest piece from the illustrious watchmaker, aimed squarely at men and taking inspiration from vintage cars...

Elegant attributes

The cushion-shaped Cartier Drive is a lot less bulky than it appears, with its 40mm dial perfectly suited to both the smallest and largest of wrists. The automotive influence is clear to see in the grille-like pattern on the dial, and the crown shaped like a bolt. Housed inside the elegant case is an in-house Cartier movement, visible through the watch's exhibition case-back. A perfect timepiece for the discerning Classic Driver, the Cartier Drive is available in steel or gold (with white, black or grey dials), priced from \$6,250.
