Fall in love with Bart Kuykens stunning Porsche photography

Lead

Bart's iconic Porsche book has grabbed attention all around the world and with news of a 7th volume we are pleased to offer Bart's books and some of his fine art prints in the Classic Driver Shop.

Belgium-born artist Bart Kuykens has successfully navigated both the art world and commercial photography since the outset of his career but it's his passion for Porsche that had gained him a lot of attention in recent years. Following the global success of his hugely successful automotive art books 'A Flat6 love affair', he has attracted the attention of world-class actors, musicians, and media personalities who became subjects of his powerful black and white portraits.

Bart goes beyond aesthetics with his grainy black and white signature style and the analogue universe he creates for all surrounding him. What he seeks above all is a raw and honest bond between him and his subject. Art requires sacrifice, and this mindset fastens him to a life devoted to his craft. Whatever it takes. We currently have a selection of [Bart's prints and the full set of volumes of his book available in the Classic Driver Shop.](#)
