Lead

We have adored Benedict Radcliffe's wire sculptures of iconic cars for some years now. However, the Porsche 934 that's recently been sighted in the streets of Milan is taking the idea of 'drive-by-wire' to a whole new level.

Teasing [the upcoming FuoriConcorso Sonderwunsch event at Lake Como](#), this amazing Porsche 934 wire sculpture by artist Benedict Radcliffe is now on display at the [Larusmiani](#) store on Via MonteNapoleone in Milan. Now someone just needs to put a seat and an engine in it.
