## [The Renault 5s are alive at Osenat's upcoming auction](#)

### Lead

If you're a fan of Renault's iconic little city car, then mark Osenat's Fontainebleau auction on July 18th in your calendar, because you might just be able to acquire every variation in one go!

[Osenat's July 18th Fontainebleau auction](#) is shaping up nicely, with plenty of rarities and collector gems to be found in the lots, including a lovely 1995 Maserati Quattroporte and two super-rare VW Golf Rallyes, but one thing they really have in spades is Renault 5s. With nine different examples of the French hatchback going under the hammer, you'll be able to complete pretty much a full set of all the Renault 5's different versions, ranging from a pure and cheerful 1977 Renault 5 L in the summer-ready shade of Andalusian Orange, all the way up to a fruity 1989 Renault Super 5 GT Turbo. Of course, almost every other conceivable variant of the 5 will also be up for grabs, so take a look below to see which Renault 5 catches your eye!

**We'd love to drive home any of these Renault 5s:**
