## [These 10 Tailor Made Ferraris are for sale. Which would you pick?](#)

### Lead

They say the possibilities are endless, and in Ferrari's wonderful world of Tailor Made, even the wildest ideas can be brought to life on their latest supercars. We've hand-picked 10 from the Classic Driver Market that have been treated to more options than most!

If you've ever had the desire to fit two contrasting coloured Daytona-style seats, or hand-painted coachlines and roundels to your Ferrari, you'd be surprised to know the brand themselves offer such a thing. Ferrari's two-layer customisation system begins with the atelier suite, which is perhaps the best of its kind, but the Tailor Made programme takes it one step further, allowing owners to customise even the smallest of details on their new stallion, meaning the last decade or two has led to some truly outrageous 458s, 488s and 812 Superfasts, with even the GT4C Lusso receiving the custom treatment.

It's rumoured the starting price to be accepted onto the Tailor Made scheme is upwards of 100,000 euros, an eye-watering sum to be added to an already pricey machine, but a figure that can quickly be reached. Thanks to the plethora of colour-carbon accents, painted interior trims and bespoke graphics on offer, the possibilities truly are endless, the only limits are down to the owner's imagination, and their bank account! The Tailor Made programme isn't just for full-sized creations, and [this incredible creation from the Amalgam Collection is a must-have for any custom Ferrari lover!](#)
