

CLASSIC DRIVER

[Is your next classic in this 200-plus car warehouse sale of dreams?](#)

Lead

Gallery Aaldering and Classic Car Auctions have joined forces for a three part sale positively brimming with collector cars, including everything from barn finds to pristine classics. We took a closer look!

It's an extremely outlandish dream, but I think we've all spent at least a nanosecond fantasising about waking up to a gleaming classic with a big red bow on Christmas day. However, rather than waiting for this unlikely occurrence to come to fruition, why not take your petrol head dreams into your own hands and peruse the three part auction hosted by [Gallery Aaldering](#) in collaboration with [Classic Car Auctions](#). With parts 1, 2, and 3 finishing on December 10th, 11th, and 12th respectively, you're practically guaranteed to find the classic you've been lusty after among the nearly 200 lots on offer!

Even the most niche automotive cravings will be satisfied, with everything from micro cars like the Heinkel Trojan and Messerschmitt KR 200, to top-tier classics like a stunning 1969 AC 438 Frua Coupe heading under the hammer. We've got our eye on the Oro Kelso 1971 Maserati Ghibli SS Coupe, but if you want a modern classic you're also spoilt for choice, with stunning automobiles from Ferrari, Bentley, and Aston Martin also listed among the lots. There truly are too many amazing cars to mention here, so don't miss out and check out this three part thriller of an auction below!
