[There's no such thing as Blue Monday with these seven PTS-shaded Porsches](#)

Lead

The ever-evolving world of Paint to Sample Porsches seems to consistently present models we've never laid our eyes on before. This gaggle of Porsches heading to RM Sotheby's upcoming Miami sale on February 27th brightened up our Blue Monday!

Riviera, Maritime, Gulf, Voodoo, San Marino, Oslo – however you like your Porsche, a shade of blue can elevate almost any era of the rear-engined sports car to another level. While trending shades of Emerald Green and Rubystone Red have always been colours the bravest of owners flock to, the variation in sky-blue shades allow owners to bring their sense of style directly to the models like the 992-generation 911, and all the way back to the 928. Of the many Porsches heading under the hammer at [RM Sotheby's upcoming Miami sale on February 27th](#), there are some standouts that would have our bidding hands reaching for the sky. Our pick would be the 2023 992 Sport Classic, complete with body-matching five-spoke wheels and the most glorious houndstooth interior complemented by rich wood trims and blue accents. Having said that, we couldn't turn down any of these beauties!

Check out these blue beauties heading to RM Sotheby's Miami Sale:
