## [Have a big cat itch to scratch? These 8 Jaguars should do the trick](#)

### Lead

Grace, space and pace is the order of the day here at the Classic Driver office, as we take a closer look at eight stunning Jaguars from the brand's rich history of sports and executive cruisers. All eight head to Oldtimer Galerie Toffen's sale on 22nd March.

It's a brand that has taken on many, many guises in its 100-plus year history. From the suave, sleek super cruisers that pounded the freshly laid motorways of the 1980s, all the way back to the weekend racers that traded paint with Sir Stirling Moss and company, Jaguar was a brand that stood proudly against its European and American rivals, be it on the racetrack or Highstreet parking space. Oldtimer Galerie Toffen's upcoming sale on March 22nd has plenty British bruisers of decades past to choose from, but the eight cats on offer offer some fantastic investment opportunities. Whether you're a lover of the golden-era drop-top E-Types, or have found yourself lusting over a long-bodied mid-2000s XJR, this sale has the Jaguar for you!
