

CLASSIC DRIVER

Wallynano Biancaneve

When yachtmasters Wally and naval architects Hoek Design work together, you can pretty well guarantee a dazzling outcome for the project. Such is the new 'Wallynano', a 36-foot day sailer combining classic lines with state-of-the-art construction and design.

The first Wallynano to be built is the beautiful pink 'Biancaneve' (the Italian name for Snow White), developed from the 60m Pilgrim and now sailing the waters in Antalya, Turkey.

The classic design was chosen because modern lines in this size of craft tend to result in an uncomfortable boat, with poor functionality. Not so the Wallynano, with its spectacular aft transom overhang and a plumb bow, creating a long water line and a magnificent retro look.

This is an innovative boat in the popular day sailer size: a unique project combining all the Wally features such as the flush deck, clean lines and easy handling.

The Wallynano is built using the latest advanced composite technology by Nedship Group, Turkey, and is available at a base price of 215,000 EUR. Biancaneve will make its public debut at the Monaco Yacht Show (September 24-27) and at the Festival International de la Plaisance in Cannes, France (September 10-15).

Further details can be found at www.wally.com.
