

CLASSIC DRIVER

Hot Britannia

Lead

Cool Britannia has been and gone: these days, the island is as hot as Carnival time in Rio de Janeiro – metaphorically and literally.

Take the last three days at the Goodwood Festival of Speed, where racing hotshots burnt under an almost tropical sun, as did the Classic Driver team as we soaked up southern England's annual rush of adrenalin – and caught our favourite moments on camera. Even in exile, the British burn brightly these days, as the British Classic Car Meeting in St. Moritz can prove; J. Philip Rathgen was out there to capture the action.
