[Jazz music and Seventies cars - the perfect match?](#)

Lead

Funky and soulful jazz devoted to the cars of the Seventies? That's our kind of music! 'Cars' is the debut, motoring-based album from groovy Danish jazz band, Elektrojazz...

You might remember a while back we [posted a story](#) on Classic Driver about Elektrojazz, a Danish jazz band basing its upcoming album on the evocative cars of the Seventies. Well, we're pleased to say it's finally arrived. Appropriately named '[Cars](#)', each of the record's songs is dedicated to a classic Seventies automobile. Delights include the Ferrari 308, Maserati Bora and Chevrolet Corvette, to name but three. It's remarkable how each laid-back, mellow tune so aptly fits its chosen car. Naturally, Elektrojazz is a Classic Driver kind of band. We won't think twice about sticking a copy of 'Cars' in the glovebox, ready to make the next long-distance trip that little bit more enjoyable.
