## [Arthur Schening merges his passions for historic racing and printed designs](#)

### **Lead**

Arthur Schening has more than 20 years' experience in design and illustration, but only recently has he found time to merge his profession with a passion for historic racing cars...

Virginia-based illustrator Arthur Schening has long had an interest in historic racing cars, and has now decided to represent those he considers to be among the most significant as a series of prints. Including such legendary machines as Ecurie Ecosse Jaguar C-/D-types, Rothmans Porsche 956s and Shelby Daytona Coupés to name but a few, the series was created by Schening in Adobe Illustrator. Each print - measuring 13" by 19" and printed on 65lb uncoated cover stock - is priced at \$30, with limited editions to follow.
