

CLASSIC DRIVER

[Back to the 1980s, Retrowave style](#)

Lead

In his last 'synthetic short', German animation artist Florian Renner brings back the 1980s using inspiration from Tron and Back To The Future...

The film was created using Cinema 4D software, the same used by manufacturers to create animated adverts for their latest cars. But Florian Renner instead uses it to recreate cult imagery of the past - with a soundtrack entitled 'Synthpop Supercar' providing the musical backdrop. Further information can be found at www.florian-renner.com.
