[This is the only pen you'll ever need](#)

Lead

Away with your disposable biro! The EDC Grafton pen by Everyman is a thoughtfully designed, affordable pen that, allegedly, should last a lifetime....

A pen for life

Said to take the best elements from a number of popular pens, the all-aluminium EDC Grafton takes common refills, boasts optimum weighting and, perhaps most importantly, doesn't cost the earth. Revealed as a Kickstarter project that is now fully funded, the minimal pen could be on your desk in a few short months. You can purchase the Grafton EDC pen via [Everyman's Kickstarter page](#). A good pen is among the most important accessories you can own - happy writing...
