

CLASSIC DRIVER

These are the motorcycle visors in which to be seen

Lead

Within the style-conscious café racer scene, form often takes precedence over function, but these gorgeous visors from the Equilibrialist are something different...

Crystal clear

Available with clear or tinted lenses, each visor is handmade and designed to fit the super stylish helmets of Ruby, Nexx, and Biltwell. Available in a variety of strap colours to match your bike, the high-strength polycarbonate and anti-fog, anti-scratch coating of these visors offer total clarity to see the stunning vistas and, more importantly, admiring glances of passers-by. Not just a practical investment, but also the perfect finishing touch to your curated custom bike set-up...
