Il Cavallino Rampante

Published by Taschen and edited by the Italian journalist Pino Allievi, *Il Fascino Ferrari* documents the illustrious 70-year history of Ferrari and its protagonists - both human and automotive - over 480 large-scale pages. The leather-bound and hand-stitched Collector's Edition is limited to 1,947 individually numbered copies and is presented in an aluminium display case, akin to the valve covers of a classic Ferrari V12, and was designed by Marc Newson. It costs 5,000 euros and you can [buy it right here on Classic Driver](#). If you're looking for the perfect way to display your copy, either in your home, your office, or your garage, there will also be an Art Edition, which comes with a chromed-steel sculpture of a V12, also designed by Newson, on which to perch the book.
