[Christie's to sell unique Ferrari 812 Superfast for children's charity](#)

Lead

Missed out on securing one of the new limited-edition Ferrari Monza SP1 and SP2s? Fear not – in October, Christie's will sell a uniquely specified 812 Superfast to benefit the charity Children Action...

Built by Ferrari's Tailor Made department, the 812 Superfast that will be sold by Christie's in Geneva on 15 October features a raft of exclusive options that make it different from any other example on the road. Its paint, for example, is in exactly the same shade as the Scuderia's Formula 1 cars, while the Italian tricolour and white-backed roundels containing the number one recall the marque's unrivalled success in motorsport's premier formula. The winning bidder will take delivery of the car at next year's Italian Grand Prix at Monza, in front of the adoring Tifosi. What's more, Ferrari's official drivers will autograph the intake plenum of the 800HP V12, just for that extra air of exclusivity. The proceeds from the car will go to Children Action, a Swiss charitable foundation benefiting children in need.
