Designed to evoke the abstract sensations of speed and beauty we feel when we see them in real life, Stéphane Dufour's pure-form sculptures of legendary cars such as the Porsche 917 and the Lamborghini Miura are now for sale on Classic Driver...

We're delighted to announce that you can now buy the beautiful pure-form sculptures of the California-based French artist Stéphane Dufour on Classic Driver. We [visited the unassuming Los Angeles studio where Dufour's sculptures are brought to life](#) back in 2019 and were captivated by the infectious passion he carefully pours into each piece. "This abstract form of expression has always been on my mind and I thought this would prove a great marriage between the minimalist aesthetic and the solid form," he told us.

The conceptualisation was long, but once the vision was clear, it was a simple case of practice makes perfect. His very first sculpture was of a Porsche 356A and he's since hand-crafted a plethora of legendary cars ranging from the Ferrari 250 Testa Rossa and Lamborghini Miura to the McLaren F1 GTR 'Longtail', more often than not one-offs commissioned by private owners or companies, though sometimes offered for sale in small batches. And it's a selection from the latter that you can find listed both below and on [Stéphane Dufour's dedicated selling page on Classic Driver](#). If your office is crying out for a new lease of life, you could do far worse than one of these colourful artworks.
