Bonhams brings weird and wonderful motorcars to its Monaco sale

Lead

While the 2021 Monaco Historique may not be as big as it usually is, Bonhams have still pulled together a fantastic selection of automobiles for their Monaco sale this April. These are our highlights.

If you are drawn to pre-war and 1950s cars then the gorgeous Delahaye 135 S with Le Mans history most certainly demand your attention. For smaller budgets the 1950 Simca Estager Barquette and 1949 Georges Irat are also well worth your consideration.

For those drawn to more modern automobiles the Ferrari 550 GTLM would be a great ticket to the hugely popular races and high speed demos that offer a chance to really use these cars. Perhaps the 550 offers too much grip, then maybe you should consider the Ex Didier Auriol Lancia Delta HF Integrale Group A rally car. A continental drive finishing up outside the casino in Monaco requires something very special, the unique Rolls-Royce 'Silver Spectre' Shooting Brake is just the ticket to turn heads while travelling in pure luxury. Be sure to check out [the full auction listing for the Bonhams 'Les Grandes Marques à Monaco' sale](#).
