## [What's your favourite driving road in Switzerland?](#)

### Lead

Flüela, Furka, Grimsel, Gotthard, Susten, Nufenen – no matter which alpine pass floats your boat (or road racer), make sure to grab the all-new, re-edited and expanded Curves Magazine Switzerland edition from the CD Shop.

For Curves Magazine, photographer and publisher Stefan Bogner has travelled the globe for more than ten years and documented the world's greatest driving roads from Thailand to California. Still, Switzerland can be considered the 'holy land' for lovers of curvy alpine roads. Now Bogner has published a re-edition of his best-selling, artfully photographed guide to Switzerland that serves as the perfect blueprint for a drive around the country. After warming up the tyres on the famous Stelvio pass, Curves takes its readers on a journey across Graubünden, Vaud, Bern and Ticino, tackling some mind-bending roads along the way. So just [order your copy today](#) and start planning your perfect road trip before the season begins.
