[Live life easy with new items from Easy on the Extras](#)

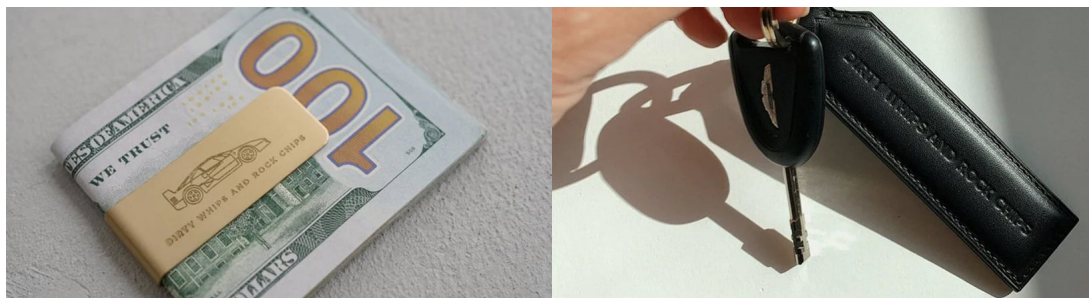

Lead

Purveyors of one of the coolest car-related clothing names around, 'Easy on the Extras' brings a whole new level to minimalist apparel design that celebrates the greatest automotive icons on the planet. Now, their products are available in the CD Shop!

Founded in 2014 out of an admiration for automotive design and an ambition to find the highest quality garments whilst remaining sustainable, Easy on the Extras is one of those brands that just gives you an overwhelming urge to buy their entire collection.

Their apparel focuses on instantly recognisable vehicles, such as the Mercedes-Benz G Wagen, Ferrari Daytona, and most recently, the Lamborghini Countach LP400 (secretly our favourite version of Lambo's golden child).

Their designs will compliment any outfit, with subtle branding on the left side of the chest that flows into a larger design to the rear. We also love the play on 'Easy on the Extras', where we spotted a skilfully designed outline of a Mercedes 190e DTM car grazing the kerb on two wheels with 'Easy on the Apex' below - cool right?

If you're looking for clothing to show you're very much into cars, but don't fancy wearing the overly branded designs that many opt for, Easy on the Extras might just be the perfect balance between style and subtlety.
