Oldtimer Gallerie Toffen's Classic Cars Auction on March 25th is packed with cult classics and wonderful oddities. Here are 10 that caught our eye.

If you're a regular Classic Driver reader, you're likely a seasoned petrol head whose pulse only starts racing when you see something really unusual on the road. Golf GTIs and Porsche 911s won't cut it, you wouldn't be caught dead turning up to dinner in the same ride as someone else. If you're sat nodding in approval, then you're in luck, because [Oldtimer Gallerie Toffen's Classic Cars Auction on March 25th](#) is bursting at the seams with automotive rarities ready to give your local car crew whiplash from double-takes. The fantastically niche [Lancia A112 Abarth](#) and [Ford Ranchero GT](#) have left the editorial department begging for a company car, but if cruising in style is more your speed, then the [Mercedes E320 Cabriolet](#) and [Maserati BiTurbo](#) are equally good choices. There's a few more desirable oddballs we've yet to mention, so take a look below and see if something catches your eye!
